Website - In development phase.

WHO AM I : When it comes to me, I like to have my fingers in many different places. I study Information Technology but I mostly moonlight in the design field. I believe that a good design should communicate with people and make them go "woowww". I always ensure I am always on the brief to deliver such design.

EXPERIENCE

- Founder** May 2018 - Currently
Bevel and Emboss Co. - Hyderabad, Telangana
It's a team instilled with creative people who work together to help startups build their brand step by step. We provide design requirements such as Branding elements, Mobile and Web app full-fledged prototypes etc. at very low prices. Have more than **25** happy clients till now.
- Graphic Designer** Aug 2018 - Currently
Google Cloud Developer Community, Indore
Designing various graphic requirements such as posters, Flyers, Banners and signage etc.
- Graphic Design Intern** May 2018 - July 2018
TeeStory Co. - Hyderabad, Telangana
Initially worked on designing various mockups and illustrating products such as T-shirts, Badges, Stickers, Mugs etc. Was later involved in developing UI for their new product page.
- UI/UX Design Intern** May 2018 - July 2018
Cracku Co. - Hyderabad, Telangana
Crafted a design system for the company to fix the visual language and conducted User Research. Designed graphic needs for the application and website.
